

Smartflower Showcase

March 2020

Cruising with Smartflower

A Smartflower was installed last year at the Belfast Harbour Cruise Terminal in Belfast, Northern Ireland, by Environmental Street Furniture. "In line with our sustainability ambitions we have installed wind powered quay lighting for the site and a 'smart flower' which will generate solar electricity for the terminal building," said Joe O'Neill, CEO of Belfast Harbour.

The First Smartflower Installation in Wales!

The owners had to rebuild their home in North Wales after the inverter for their roof panel system started a fire. They opted to install a Smartflower instead so they can still produce clean solar energy.

Three Smartflowers Installed in Taiwan

The Taiwan Cement Corporation installed 3 Smartflowers at the DAKA Open Ecological Recycling Factory. The Smartflowers have become one of the photographic hotspots at the venue.

Four Years with Enel Chile: A Recap

Enel Chile installed a Smartflower 4 years ago, and even used it to power Chile's first 100% renewable energy-powered Christmas tree! Read more about their "architectural icon" [here](#).

Have an installation, event, or trade show coming up? Have something you'd like to announce? Reach out to our Creative Designer, Sheen Hui, at shui@smartflowersolar.com to be featured in next month's edition of *Smartflower Showcase*!
